## **Taco Expands Light Commercial ECM Pump Offering**

Taco Comfort Solutions® is expanding its light commercial ECM pump offering with the 1911ecm and 1915ecm high-efficiency pumps.

The 1911ecm is a 425 watt, self-sensing, close coupled, mechanically sealed pump that features a high-efficiency volute, ECM motor, and an integrated frequency drive. It is easy to install and program, and provides a maximum 50 feet of head and 105 GPM.

The 1915ecm offers all the user-friendly features of the 1911ecm, but in a more powerful package. At 650 watts, the 1915ecm provides a maximum 65 feet of head and 120 GPM.

Simple yet versatile control options on both circulators include constant pressure, constant speed, proportional pressure, 0-10Vdc and parallel pump alternation. These standard features, combined with the intuitive user interface, allow for quick start-ups achieving optimum system efficiency and maximum comfort.

Both pumps are both available in ductile iron for closed loop hydronic heating and cooling systems or stainless steel, NSF/ANSI/CAN 61 & 372 Commercial Hot Certified for domestic hot water applications. Taco's 1915ecm is available now, and 1911ecm will be available in the 2<sup>nd</sup> Quarter of 2023.
